

THE YACHT

report

The leading magazine for the design, construction,
management, ownership & operation of luxury yachts

Issue 86

July/August 2007

Small but Significant

JFA Shipyard have recently delivered their classic 82-ft sailing yacht *Atao*. Following the success of JFA's *Aldebaran* (JFA 70 Classic), the 82-footer was developed in collaboration with Barracuda Yachts Designs (naval architecture) and Dick Young Designs (inside layout). Since her delivery *Atao* has already reached the Antilles for the beginning of her charter season and is likely to do a round the world trip shortly after.
