BARRACUDA YACHT DESIGN

B-65 Explorer: luxury and range

Formed in 1989, Madrid's Barracuda Yacht Design team has been producing motor and

sailing concepts with plenty of attitude. The B-65 is typical of Barracuda masculine approach, with bold, strong lines and open plan decks. The B-65 incorporates enough water, air and even road toys to keep any budding adventurer entertained. The exploration deck fea-

tures two submarines, a quick deployment tender and two Jeeps with a further two limousine style tenders and four PWCs housed in the internal garage. With a theoretical range of 7000 nautical miles, this is one super-explorer that can get you to where the adventure is.
