10 COOLEST THINGS IN THE WORLD THIS WEEK

From Nike trainers to a *Stanger Things* record, here are some of the 10 coolest things in the world this week

The world's fastest superyacht

Boat builder, Barracuda, has just announced that it'll take on the 70-knot superyacht speed record with this - a 33.5m luxo-ferry that'll hit more than 75 knots (86mph). But don't form an orderly queue: the carbon fibre ship that deploys 3-metre foils to decrease displacement by 50 per cent has already been sold to a UK-based buyer for an undisclosed sum. That said, it'll probably build you another one if you've got the resources.
