

TAILORED TO PERFECTION...

JUST LIKE YOUR FAVOURITE, MADE-TO-MEASURE SUIT, AT BARRACUDA YACHT DESIGN WE CAN TAILOR AND TRIM OUR LEVEL OF SERVICE TO PERFECTLY FIT YOUR SHORT OR LONG-TERM NEEDS.

Classic or modern, metal or composites – as qualified naval architects and yacht designers, we have a proven track record demonstrating our capability with every type of design theme, construction material and build technique available.

Successful collaborations with notable clients highlighted on our website, such as JFA Yachts, Pendennis Shipyard, Navantia, Lazzara Yachts, Offshore Yachts and many others, will convince you we are the right partner for your significant new-build, refit or conversion/optimisation project.

Similarly, balancing the commercial challenges that a production yacht design throws up, is another specialism here at Barracuda Yacht Design.

We've been fortunate to have designed some of the most commercially successful series-produced yachts of recent times, with clients such as the Sasga / Menorquín 'retro-inspired' range, for example, going from strength to strength. Of course, being good technical problem-solvers and design visionaries is just one aspect of our all-encompassing job.

OFFSHORE YACHTS

MONACO YACHT SHOW,
28TH SEPTEMBER TO 1ST
OCTOBER

Although not with a physical stand presence this year, we will still be there in person, so please get in touch with Senior Naval Architect, Iñigo Toledo, who will be more than pleased to meet up with you at the show.
