

65M 'EXPLORER' MY

Introducing Barracuda's 65m – purpose designed 'go-anywhere' Explorer with the kind of living space and accommodation amenities one would normally associate with an equivalent length luxury superyacht. Our design avoids the need to compromise, which is so often the case with Explorers born out of the conversion of a former military or commercial vessel – not so in this case. Designed with an almost military stance, a

prominent bow and double-chine hull that is capable of handling rougher than normal conditions, while keeping decks dry. The exploration deck has room for two submarines, a quick deployment tender and two jeep style vehicles. A large enclosed garage houses two further limousine style

tenders and four PWCs. The 'split personality' of this fascinating design is exemplified by way of the beach club with large swim-platform and dual side-opening doors, while not far away the heli-pad is not just 'touch and go' but is certified for a full utility, explorer's helicopter. Main deck comprises four guest cabins and a VIP suite accessed via a central hall. Behind that, a large internal lounge and dining area leads through to a spacious external patio. On the upper deck the owner has his/her suite with private terrace and positively vast walk-in wardrobe and adjacent bathroom space. The deck space is shared with that of the captain's cabin, conveniently situated next to the bridge. Predicted to be one of the most commonly frequented areas, the sky lounge is where guests can sit back and relax while taking in 360° views and admiring the visual spectacle of the yacht's very own helicopter. With a top speed in the region of 16 - 18 knots and cruising speed 14 knots giving up to 7,000nm range – the Barracuda 65m Explorer is bound to satisfy the wanderlust of even the most adventurous owner.

LOA: 64.77m · LWL: 62.19m · Bmax: 11.25m · Disp: 1,200 Tm, Speed: 14/16-18Kn · Range: 7,000nm
