

DISCOVER TERRANOVA ITALIAN YACHTS AT CANNES

T115

Formed in 2015, Terranova Italian Yachts, is the new name behind the Terranova 'explorer-style' range, designed by Barracuda Yacht Design.

Having taken inspiration from the curvaceous lines and enduring appeal of elegant Gentleman's Motor Yachts from the 1950's, we set about fulfilling the original brief by introducing solid naval architecture principles, to bring about a modern and efficient interpretation of a classic looking theme.

The range now includes distinctive Barracuda designs for the T-68, T-85 and T-115 with latest revisions including either a 'Classic' or 'New' look style to furniture, materials and choice of fabrics used.

With our partnership as principle naval architects continuing successfully with the brand's new owners, we recommend you discover more about Terranova Italian Yachts by visiting **stand SYE 220 at Cannes.**
