

## BE AMAZED AT THE DIVERSITY OF OUR DESIGN, AT THIS YEAR'S MONACO YACHT SHOW

At Monaco this year, find us once again on stand DG2 – the Designer's Gallery located immediately on the left hand corner of the harbour as you approach it.

Anticipating another busy show, our stand design this year features a range of concepts and completed projects intended to demonstrate the wide diversity and technical and creative capability of our design and naval architecture work.

Inigo Toledo

From the extreme, such as our amazing 110ft 'High Speed Motor Yacht' design, that is progressing steadily for a UK based client, to the efficient, rugged 'go anywhere' appeal, as intended by our 50m 'Pocket Size' luxury explorer yacht concept.

### THE 'POCKET' EXPLORER – 50M

There's plenty to show you and talk about when you come and see us. If time is tight and you wish to pre-book a meeting, contact Inigo Toledo at Barracuda Yacht Design, who will be pleased to accommodate your specific time request.

Looking forward to seeing you there!
