

SEE US AT MONACO FOR OUR INTERIOR DESIGNS AS WELL...

From unique and luxurious 'one-off' superyacht interiors, through to the practical and commercial necessities of production boat building, find out more about our various Interior Design concepts and fully completed projects as well...

Through balancing different colours, with different textures, different furniture shapes and the careful use of natural incoming light, we have created some of the most interesting and visually appealing yacht interior and accommodation spaces in the past few years.

62' CRUISER / RACER · SY

ATOLLVIC – ATLANTIS 76' · MY

Coming from a strong architectural family background as we do, our natural tendency is towards a cleaner and more simple, geometrical approach that many contemporary living spaces call for.

"XARIFA" – 50M SCHOONER REFIT · SY

SASGA YACHTS – MENORQUIN 68' FB - PRODUCTION · MY

Equally, we are very well experienced with traditional and classic yacht designs, where the key is about researching and respecting the roots and origins of the original design and sympathetically introducing subtle, modern-day improvements and enhancements as and where we can.

E-News Nr 39 – Sep 2018
