

ANOTHER NEW TERRANOVA 85FT SOLD..!

THE TERRANOVA 85FT IS MAKING WAVES ONCE AGAIN, FOLLOWING THE ANNOUNCEMENT OF ANOTHER NEW HULL HAVING BEEN SOLD TO A NEW ITALIAN CLIENT. DESIGNED TO BE REMINISCENT OF CLASSIC 1950'S / 60'S TRAWLER / EXPEDITION-STYLE YACHTS, WITH COOL, MODERNIST INTERIOR OPTIONS AVAILABLE FOR THE INSIDE.

The T85 offers an abundance of style, elegance and 'old-world' character, rolled together with modern-day creature comforts and energy-saving efficiencies.

Favourable initial build costs, low ongoing maintenance & repair and low noise and vibration levels are the kind of technical benefits we have been able to bring to the design.

With typically voluminous 'bow-to-stern' internal proportions and generous head-height, there's a fully specified accommodation deck, with four large en-suite guest rooms and additional space for two crew quarters in the bow, if required.

From the top down, there's a private sun deck, followed by a bridge deck and main saloon deck, with external patio

dining areas to the rear of both the bridge and saloon decks. Living space, in fact, is more in-line with a yacht of much longer length and an obvious benefit of the tall, classic-looking 'multi-deck' concept.

The 'New' interior comprises subtle, cool grey, muted tones and a 'washed' look to the flooring, wall and furniture surfaces, with not a hint of mahogany and varnish anywhere to be seen! Die-hard traditionalists will not be disappointed as a 'Classic' interior option is still of course also available.
