SERIOUS RESPECT!

AT BARRACUDA YACHT DESIGN WE HAVE CREATED A CULTURE OF RESPECT & ADMIRATION FOR THE PAST.

By designing yachts that reflect many of the traditions, theories & proven concepts from the not too distant past, we have perfected the art of gradual evolution, as opposed to the less predictable nature of a full-on revolution.

M68

Even despite having some of the most sophisticated design software tools at our disposal, you will still see the humble HB pencil & ruler lying somewhere in our studio, but never far from hand.

YACHTING
FESTIVAL
CANNES

If you are intending to visit the Cannes Yachting Festival during September, find time to see the fabulous Menorquin 42 & 54 from

Sasga Yachts, located in the Vieux Port, on Quai Saint Pierre, stand QS P007.

Barracuda Yacht Design have been responsible for design of the entire six-model range, and the Menorquin range is a fine example of how a centuries old, traditional-looking design, can be brought completely up to date, fully modernised & made to be highly efficient, yet without losing that essential respect for the past.
