

EXPECT THE UNEXPECTED!

NEW 65' - 72' DESIGNS FOR OFFSHORE YACHTS

WITH AN OFFICIAL ANNOUNCEMENT FROM OUR CLIENT, OFFSHORE YACHTS, EXPECTED FAIRLY SOON, WE ARE THRILLED AND EXCITED TO ANNOUNCE OUR OWN INVOLVEMENT AS DESIGNER AND NAVAL ARCHITECT FOR OFFSHORE YACHTS' 'NEXT GENERATION' OF SUPER-SEAWORTHY CRUISERS AND EXPLORERS IN THE 65-72FT SIZE RANGE.

Legions of owners before now have enjoyed Offshore Yachts' voyager, cruiser and offshore series, for their solid build-quality and confidence-inspiring seakeeping in challenging conditions.

Everything connected with that remarkable past reputation and heritage has been maintained yet fully updated by us in the form of 'tender up' American-style explorer versions from 65-68ft, and a more European-style 70ft 'tender aft' version, alongside a slightly larger 72ft version, with notably spacious and welcoming aft cockpit.

With production now underway at Kha Shing in the far east, customers can expect three full-beam width cabins, large and practical fly-bridge spaces, and numerous other interior/exterior design highlights, clothed in a unique, charismatic, and contemporary-styled hull.

MEET US AT MONACO:

Barracuda Yacht Design, MD, Iñigo Toledo, will be visiting on one or two days only this year, so if you would like to meet with Iñigo, please get in touch beforehand to agree a mutually convenient meeting time.
