

## No LIMITS

**NOT TO BE MISTAKEN FOR ANYTHING OTHER THAN A PURPOSEFUL, ROBUST-LOOKING EXPLORER/TRAWLER, OUR 74FT / 24METRE CUSTOM CONCEPT HAS A WARM AND INVITING 'APARTMENT-STYLE' INTERIOR, THAT BELIES THE LONG-DISTANCE CRUISING ABILITY AND SERIOUS INTENT OF THE YACHT.**

Free of excess weight and frippery, this very characterful, passage-maker is capable of sustained cruising in northern and southern latitudes and arctic and tropical conditions.

A signature feature of many of our designs are those largescale windows with panoramic seascape views and plenty of natural and incoming light. The generous swim-platform can carry an 'adventure-style' RIB or boat, for short excursions and daytrips to those undiscovered and unexplored places.

Shown here with a simple three cabin layout, many other accommodation requirements are entirely possible with this high-volume hull design. Contact us now for more information.
