

## FRESH APPROACH

**WHEN MONTEFINO YACHTS APPROACHED US FOR A NEW DIRECTION AND A FRESH APPROACH FOR THEIR LARGER SIZE YACHTS, WE WERE MORE THAN PLEASED TO HELP.**

# MONTE FINO

Y A C H T S

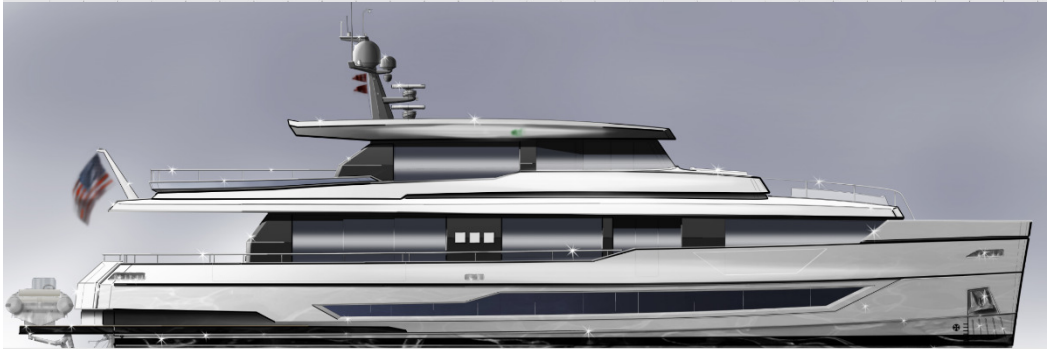

# 100'

The brief called for an innovative and efficient design, with balanced features and rational proportions. Not fussy or overcomplicated, but something with the right amount of style and character to create a new reference point for the brand for years to come.

Central to the project is the new 100ft that you see here, with plans in place for 90ft and 115ft versions further down the line.

Combined with intensive customer-research and input from US dealer, John Olson, the end-result is, unquestionably, a 'market-friendly' design, where significant use of glass offers either 'long-windows' styling, or there are short-rectangular window alternatives, for a more classic look and feel.

Built at Kha Shing in Taiwan, practical options for an Enclosed Bridge on the Upper Deck, or a Raised Pilot House instead, will enable different minded customers to still include a Montefino on their final short-list.

**FL**  
FORT LAUDERDALE  
INTERNATIONAL  
BOAT SHOW

**JOIN THE OFFICIAL PRESENTATION AT 16:30-19:30HRS, THUR 27<sup>TH</sup> OCT AT FLIBS:**

If you are attending the Fort Lauderdale Boat Show, contact us now to receive your exclusive invitation to join the Montefino presentation at a restaurant near to the show.
