BARRACUDA YACHT DESIGN MINORCHINO 34'

Announcing the World Premiere of the Minorchino 34

Welcome to the **World Premiere** of the Minorchino 34 - latest addition to the existing Minorchino range including the 42 and the 54.

Offering a refreshing alternative to the many 'similar looking' semi-displacement and planning boats appearing at Cannes, the new Minorchino 34 is built from sandwich composites by Sasga Yachts in Menorca, and has been designed by Barracuda Yacht Design, who took 'retro' inspiration from the renowned sea-keeping and practical nature of centuries old "Llaüts" – traditional, multi-chine boats used by Balearic fishermen still today.

Characteristics of the original design, a plumb bow with high freeboard hull, rounded stern sections and generous beam width proportions carried almost the entire length of the hull, has resulted in an exceptionally voluminous and useable interior and exterior.

Entered through tall 'patio-style' doors the living area is a spacious saloon and galley combined. Dominated by tall windows and generous head-room, there is superb all round visibility and plenty of natural incoming light. The internal steering position is on the starboard side. Simple, unadorned fabrics for seat cushions and curtains keep the mood calm and relaxing and in-keeping with the confident and calm nature of this pleasant and well built boat.

This is a two cabin model, with accommodation for 4 people, plus 1 occasional 'extra' in the saloon. The owner's cabin in the bow is a light and airy space with excellent

barracuda@barracuda-yd.com

standing head-room. The guest cabin is a twin berth and both cabins share a single bathroom.

Externally the new 34 has a good size aft deck, with more than enough room for outside seating and dining. There's plenty of foredeck space too with a large sunbathing pad and anywhere on the boat can be easily and swiftly accessed via 'walk-around' side decks, with large gunwales and traditional handrails for added protection and safety for children.

A large and practical swim-platform enables easy access for swimming and diving, and around the boat subtle influences, such as a wooden stem post and wooden mast, serve as gentle reminders of the traditional look and feel and relaxing ambience that cannot fail to accompany this boat.

Performance is an entirely modern proposition, however, and economical cruising speeds of between 12 to 18 knots can be easily achieved via twin 225hp engines. Noise and vibration have been kept down to the bare minimum and both Barracuda Yacht Design and Sasga Yachts have turned this outwardly traditional design into a comfortable, efficient and practical option for today's leisure user.

Technical Data:

Length overall:	10.00m
Hull length:	9.00m
Beam width:	3.80m
Lightweight displacement:	8.50Tm
Draught:	0.60m
Fuel capacity:	650 Litres
Fresh water capacity:	350 Litres
Engine power:	2 x 225hp
Maximum speed:	21 Knots
Cruising speeds:	12-19 Knots
Cabins:	2
Berths:	4 + 1
CE Certification:	A Ocean
